Development of  
**General Education Development**  
(GED®) Adult Education Materials  
for Instructors and Students

## Fostering educational and professional success of adult learners

The client is a renowned publishing company offers a comprehensive suite of adult education curriculum and resources, available in both print and online formats.

Carefully crafted learning materials are designed to empower students by strengthening their academic skills, enabling them to obtain their high school equivalency credential, equipping them with essential workforce and employability skills, and ultimately driving them towards long-term employment outcomes.

## Business Requirement

The GED® test opens doors to better job prospects, further education, and training, with acceptance by over 95% of US employers, colleges, and universities.

To cater to these needs, the organization sought to create comprehensive Pre GED® and GED® Test Prep resources in English and Spanish. These materials encompassed Math, Science, Social Studies, Reading, and Language Arts, featuring Real-World practice sets, Mini Lessons, Unit Reviews, an Instructor's Guide, and Student Materials.

## Integra's Approach

The development of these materials aimed to meet the goals and expectations of instructors teaching GED® Exam students. Initially focused on Math and Science, the project scope expanded to include Reading, Language Arts, and Social Studies. To ensure Integra delivers high-quality content aligned with client best practices, we implemented the following strategies:

- **Subject Matter Expert Resourcing:** We carefully selected subject matter experts (SMEs) for each area, providing dedicated leads and capable team members.
- **Training and Knowledge Sharing:** Math and Science Leads conducted comprehensive training sessions for Reading, Language Arts, and Social Studies Leads, promoting cross-functional knowledge sharing and consistency.
- **Revision and Feedback:** Our leads diligently reviewed the manuscript, providing valuable feedback. Regular pull-up meetings addressed concerns and questions during development.
- **Ongoing Communication:** Weekly meetings with the entire team maintained a clear understanding of project guidelines, goals, and expectations, facilitating seamless collaboration and alignment towards desired outcomes.

## Result

By closely aligning our understanding of the client's needs with our expertise in adult education, we successfully met the client's expectations. We delivered a high-quality product within the specified timeline. Furthermore, our deep understanding of the client's requirements enabled us to develop additional adult education courses, including pre GED® and TABE College and Career Readiness, for this client.

Integra is a trusted partner in Business Process and Technology Services for many leading organizations worldwide. With a focus on providing end to end solutions for digital content, learning services, and content workflows, we help our customers realize transformational business value.
